

Pillow Talk

Whether you have been working hard or getting a little too much sun, a good night's sleep starts with your bed companion, your pillow.

That's why we are glad to offer you a wide array of pillows, specifically made to give you the comfort you desire.

Sweet Dreams!

Fiber Pillow

Fiber pillows are resilient, providing consistent support levels across the entire pillow. Fiber pillows tend to sleep cooler as they don't retain as much heat.

Fiber Balls Pillow

Ball Fiber pillows contain ball-shaped fibers that are designed to pamper you with maximum comfort and softness. Made of a very thin layer of polyester fiber with siliconized outer layer and designed to give more volume and better air circulation.

Microfiber Pillow

Designed for those who like the plush feeling, the Microfiber pillow is a soft and comfortable pillow. An alternative for those who prefer a synthetic pillow.

Fiber Like-Feather Pillow

A scrunshable, luxurious pillow stuffed with feather alternative to imitate the feel of a down pillow by using cotton or polyester fibers. It's soft support cushions the neck at a natural, restful angle.
